Discover the potential of Nordic forests – business meets science

June 9th, 2021, 10 AM - 2 PM (UTC+3), webinar

The forest products are much more than timber and pulp! Our project team welcomes You to participate and discuss the hidden potential of non-timber forest products.

Nordic non-wood forest products are globally recognized as being healthy, high quality, and reliable. During the webinar new quality and authenticity demonstration methods of raw materials and products will be presented.

Learn how the methods can easily be available and utilized by enterprises to get an advantage in the market.

You will also hear about the opportunities of the Asian markets and potentially feasible industrial refining methods.

- The program of the event will be available soon. Stay tuned! [Register here](#)
- More information about the project is available at: www.centria.fi/novelbaltic

NOVELBALTIC
