Mesiangervo Meadowsweet

Filipendula ulmaria

The leaves and flower clusters of meadowsweet (*Filipendula ulmaria*) may only be used in food supplements and herbal teas. Meadowsweet flower extract may only be used in beverages that are consumed in a similar way to alcoholic beverages, such as sparkling drinks.

Problem: The use of meadowsweet flowers and an extract in food products is not permitted.

Food Statuses

Leaves and flower clusters:

NOT NOVEL IN FOOD SUPPLEMENTS **R**

HERBAL TEA **Y**
